

# ARIZONA BROADBAND FOR EDUCATION INITIATIVE

2023 Q2 Update

The Arizona Broadband for Education Initiative is a partnership between the Governor's Office of Education, the Arizona Department of Education, the Arizona Corporation Commission, and the nonprofit organization EducationSuperhighway. The program's goal is to ensure that every public K-12 instructional building in the state is connected via high-speed and reliable broadband connections to enable digital learning in the classroom.

One major component of the Initiative includes supporting schools and libraries as they take advantage of the federal Schools and Libraries (E-rate) Program. The E-rate program provides discounts of up to 90% of the monthly cost of telecommunications services to keep students and library patrons connected to high-speed broadband. It is administered by the Universal Service Administrative Company (USAC), a non-profit designated by the Federal Communications Commission (FCC).

The E-rate Modernization Order, adopted in July 2014, allows states to establish "matching funds" that may contribute up to ten percent in funding to subsidize the cost of Category I "special construction" projects. If a state provides eligible schools and libraries with funding for special construction charges for high-speed broadband that meets the FCC's long-term connectivity targets, the E-rate Program will increase an applicant's discount rate for these charges up to an additional ten percent to match the state funding on a one-to-one dollar basis. The combination of E-rate and state match funding can cover up to 100% of an applicant's out-of-pocket cost for the infrastructure necessary to supply high-speed internet.

**In March 2017, the Arizona Corporation Commission updated the Arizona Universal Service Fund (AUSF) rules to provide \$8M in funding for "Special Construction" projects in Arizona. Used in combination with the E-rate program, this funding will result in approximately \$150M in new construction projects within the state. In April 2017 the Arizona State Legislature approved an additional \$3M for "Special Construction" projects.**

**May 2023 the Arizona Legislature approved \$5M in additional funding to bring the total investment in our schools and libraries to \$13M.**

**To date, we have completed \$140M in broadband projects across the state providing high-speed internet access via internet services providers and wide area networks.**

Currently, 187 of 242 (77%) of our districts have access to unlimited bandwidth. We only track Charter Schools and Libraries where we provide services since many of them prefer low-cost DSL services. Tribal areas have proven to be the most challenging in delivering internet and wide area network services.

Partnering with the County School Superintendents in building county wide networks have been the most successful in reducing costs and providing the best services.

**COST PER MEG**

The Arizona Broadband for Education Initiative has been a key factor in bringing the cost of bandwidth down across the state. Funding new broadband builds brings low-cost, high-performing services to our most rural areas. In 2016, before we started the broadband projects, \$10 per meg was considered a good price. Today, we expect less than \$5 per meg (Prices include Access and transport).

**Bandwidth “Recommendations”**

We cannot force an entity to purchase bandwidth but we can provide the bandwidth and give them the opportunity to purchase via the Erate program. Discounts range from 40% to 90% based on their NSLP (National School Lunch Program) discount level.

Internet Service Provider		
School Year	2017-18	2020-21
<b>Small School District (fewer than 1,000 students)</b>	At least 1.5 Mbps per user (Minimum 100 Mbps for district)	At least 4.3 Mbps per user (Minimum 300 Mbps for district)
<b>Medium School District Size (3,000 students)</b>	At least 1.0 Gbps per 1,000 users <sup>^</sup>	At least 3.0 Gbps per 1,000 users
<b>Large School District (more than 10,000 students)</b>	At least 0.7 Gbps per 1,000 users	At least 2.0 Gbps per 1,000 users

**Bandwidth Per Student**

Delivering reliable bandwidth to schools and libraries is extremely important in educating our students. As applications and curriculum develop, they become more bandwidth intensive. Having a cost effective, reliable high-speed fiber connection becomes mandatory to keep up with the demand. Today 87% of Arizona students receive at least 1.5M per student and 12% receive 4.4M per student.

With the original \$3M from the Governor's office and \$8M from the Arizona Corporation Commission (AUSF Fund) this program has been hugely successful and is a proven model for other states in providing high-speed internet access to schools in rural areas. Our Arizona Legislature has approved an additional \$5M to continue the important work of connecting anchor institutions with high-speed internet.

Made possible by;

Funding for this initiative:

- Arizona Governor's Office
- Arizona Corporation Commission
- Arizona Legislature
- Arizona Department of Education

Fully Supported by:

- Arizona Department of Administration
- Arizona Corporation Commission - Commissioner Lea Marquez Peterson
- Arizona State School Superintendent – Tom Horne
- Education SuperHighway
- Apache County School Superintendent – Joy Whiting
- Yavapai County School Superintendent – Tim Carter
- Cochise County School Superintendent – Jacqui Clay
- Gila County School Superintendent – Roy Sandoval
- Navajo County School Superintendent – Jalyn Gerlich
- La Paz County School Superintendent – Dru Wagoner
- Coconino County School Superintendent – Cheryl Mango-Paget
- Santa Cruz County School Superintendent – Alfredo Velasquez
- Yuma County School Superintendent – Tom Tyree
- Mohave County School Superintendent – Mike File
