

Emergency Connectivity Fund Service Provider Invoice (SPI) Affirmation

ATN, along with our affiliate companies, including but not limited to; NTUAW and CommNet, are eligible providers of the FCC ECF program.

We are happy to provide such participation based on either the SPI and/or BEAR invoicing methods as selected by the applicants. If the SPI method is chosen, we agree to directly invoice USAC/FCC for the products and services rendered in accordance with program rules.

We agree to provide such services without immediate proof of funding. In the event funding is not received, we will resolve any payment, continuation, and/or return of equipment directly with the applicant.

We are happy to supply quotes for Hot Spots, Home/Residential LTE services, and look into any other customizable solutions we may be able to provide.

Please utilize the below SPINs for the relative companies that have provided you quotes.

143035541	NTUA Wireless, LLC
143050194	Commnet AZ, LLC
